

South Texas House-Church Conference ~ 2011

Practical Conference on "How To" of House Church

Speaker

Dr. Tony & Felicity Dale

Tony and Felicity Dale certainly aren't rookies when it comes to being in the thick of church-planting movements. While receiving their medical training at Barts Hospital in London in the mid-70s, the Dales were active in the British House Church movement, pioneering a church in their medical college and later in the East End of London.

In 1987, the Dales moved to the United States, where they developed businesses to support themselves and again jumped heart-first into church planting. Out of these church-starting pursuits, the vision and relationships developed that led to the formation of House2House magazine. They also have authored a variety of books, including: *Renewing the Mind*, *Simply Church*, the *Getting Started Manual* on planting house churches, and now, more recently, *An Army Of Ordinary People* and *The Rabbit and The Elephant*, co-authored with George Barna.

With a passion for seeing churches planted among those who are not yet Christians, Tony and Felicity love to "practice what they preach" by reaching out to people of peace within the various spheres of influence that they are involved in.
